OBJECTIVE

Full Stack Developer skilled in React.js, Next.js, and TypeScript, with proven experience in delivering scalable web solutions using TRPC, Drizzle ORM, and PostgreSQL. Currently in Dubai and available for immediate joining

EXPERIENCE

Full Stack Developer

Sep 2024 - Sep 2025

Nexobe

- Built and deployed interactive dashboards using Chakra UI and SaaS UI, improving internal workflow efficiency.
- Integrated TanStack Query and TRPC to enhance data performance and backend communication.
- Optimized PostgreSQL schema with Drizzle ORM, reducing redundant queries and improving data integrity.

EDUCATION

B.E Computer Science and Engineering

2024

Aalim Muhammad Salegh College of Engineering, Anna University
8.09

HLC

2020

Muhyiddheeniya Matric Higher Secondary School
63.17%

SSLC

2018

Muhyiddheeniya Matric Higher Secondary School
83.8%

PROJECTS

Caviti Ai

- Designed responsive UIs in React.js & Chakra UI.
- Built type-safe TRPC APIs, improving API stability by 30%.
- Implemented PostgreSQL schema via Drizzle ORM for better scalability

Otteri.ai / Pickel.ai / Vipery.ai / Snap.photo/GoodOff

- Contributed reusable UI components and fixed layout responsiveness across web applications.
- Integrated APIs and enhanced frontend functionality to improve load time and user experience.
- Supported bug-fixing, testing, and feature enhancement processes across multiple React-based projects.
- Gained hands-on experience with version control (Git), pull requests, and cross-team collaboration
